ALLOWANCE

Allowable Subject Matter

4. **Claims 4 and 9** are allowed. These claims will be renumbered as 1 and 2.

5. The following is an examiner's statement of reasons for allowance:

Independent claims 4 and 9 define a communication apparatus for performing ring-type multiple-address transmission that corresponds to the disclosed invention as depicted in figs. 4~6. The claims distinguish over the prior art in that the processor causes the transmission of the received image data *with or without* the transmitter information (figs. 3A~3B) based on the selected mode of the ring-type multiple-address transfer and whether the apparatus is used as transmitter or a repeater station. The transmitter information further provides information identifying the received image data as depicted in fig. 3A.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
